

# INN-PRESSME Open Calls

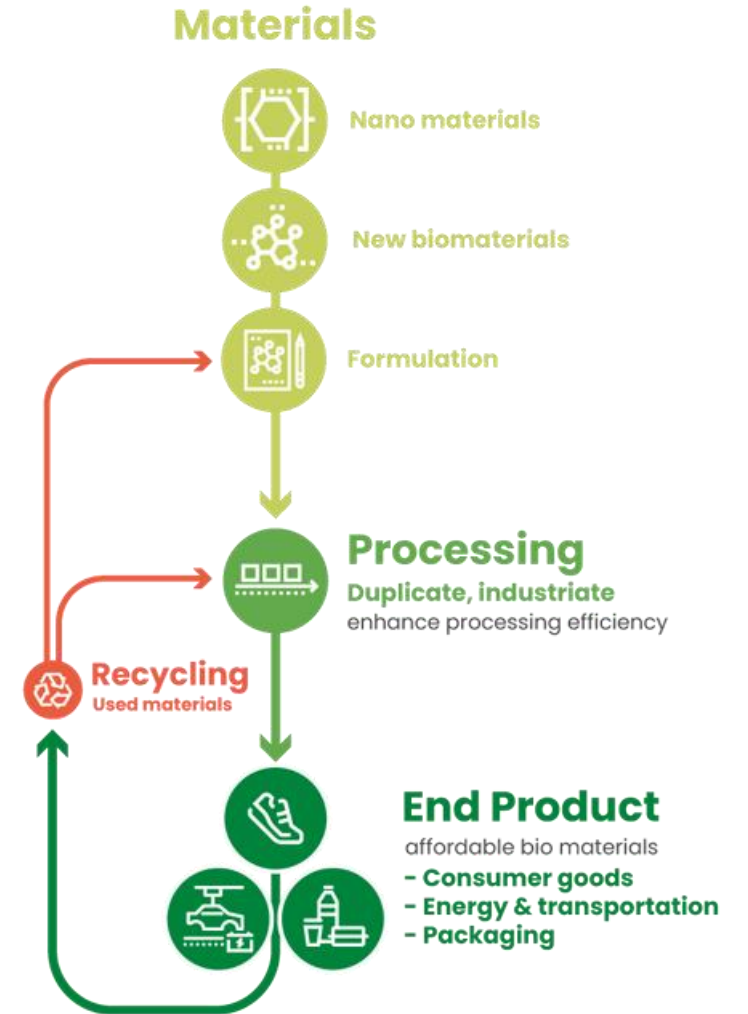

**Riccardo Capolla, STAM srl**

[r.capolla@stamtech.com](mailto:r.capolla@stamtech.com)

27.04.2023

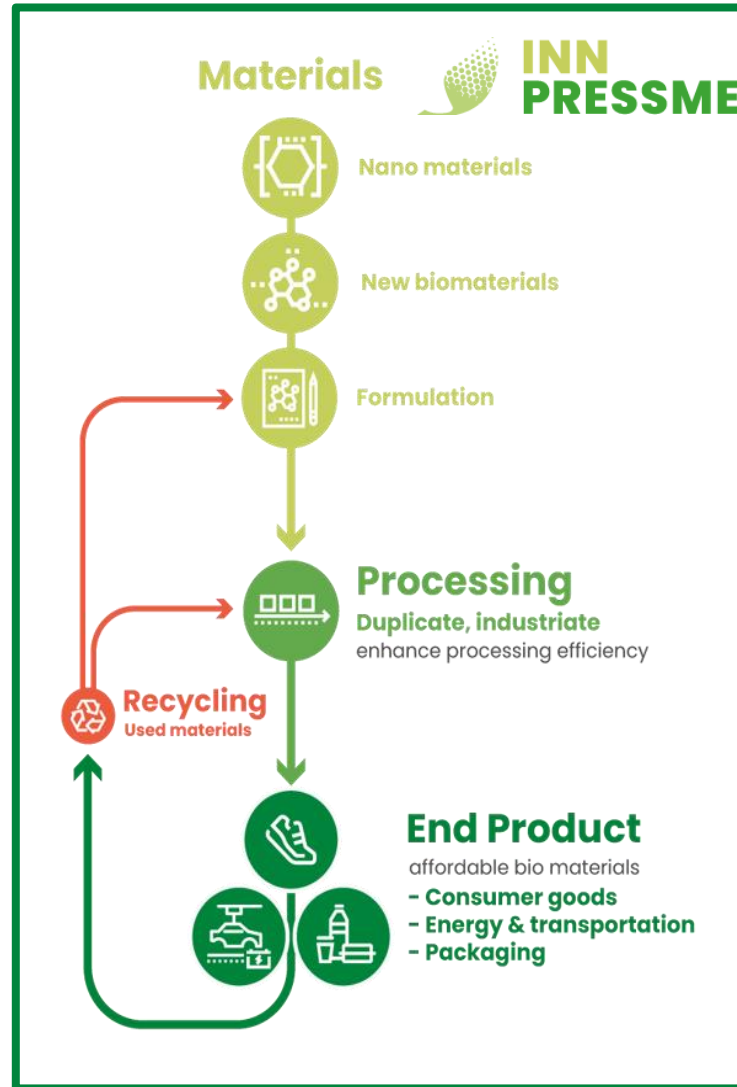

# Introduction – the project

- INN-PRESSME is a wide and ambitious project
- Several topics and possible exploitation

# Introduction: SEP and the OITB

- How clients will interact with the OITB

# Introduction: SEP and the OITB

It's a great project...

... but how will we make it into reality?

## AIMS

- Supporting companies in accessing and using INN-PRESSME's assets and services
- Validating the OITB operational model
- Gathering feedbacks from end-users
- Building a proactive ecosystem engaging external stakeholders and end-users

## FINAL GOAL

- Finding and implementing new test cases

# OPEN CALLS – The rules

12-15 Innovation Concepts will be subsidized to use INN-PRESSME's facilities and services.

Calls for Innovation Concepts, jury of internal and external experts and evaluation based on:

- Innovativeness of the proposal;
- IPR on technology;
- Concept fitting with the OITB's assets (e.g. pilot lines) and services;
- Starting TRL (best between 4-5)
- Feasibility of the activity according to pilot lines' capacity

We expect Innovation Concepts with costs between 50k-100k euros.

The costs will be covered:

- 70% by the Consortium as provided services (person months to use the facilities)
- 30% from the applicant

# OPEN CALLS: how can people interact with the OITB

  
New PLA packaging

**SEP**  
**INN  
PRESSME**

New bio-based material for the packaging sector

# OPEN CALLS: the INN-PRESSME platform

Where can I find info on the pilot lines and the services INN-PRESSME will provide during the Open Calls?

# OPEN CALLS: timeline

7 innovation Concepts received

6 eligible InnovationConcepts

Negotiation phase

If you are considering the possibility to participate,  
contact us

We will:

- Listen to your project and discuss how INN-PRESSME can help you
- Find out the best pilot lines to work on it
- Help in creating the project according to our capabilities

# The Innovation Concepts
