16.11.2022

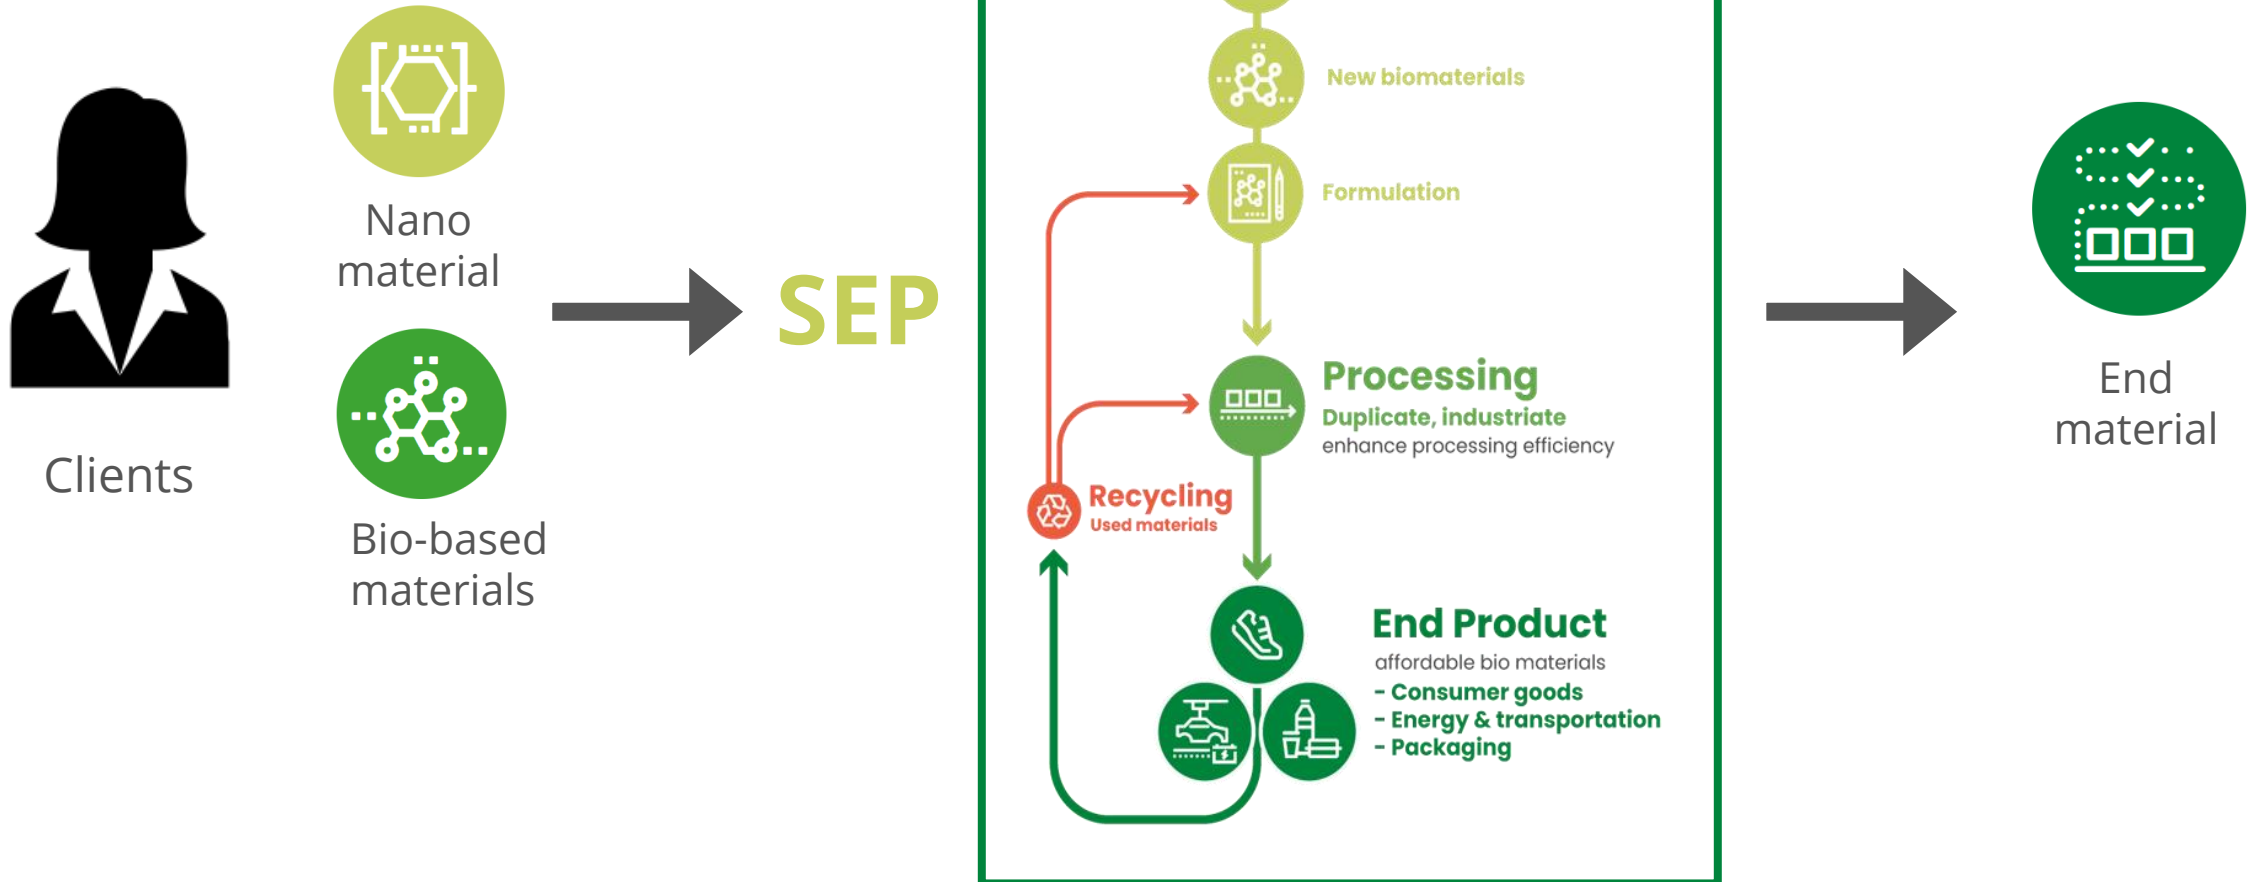

Introduction – the project

- INN-PRESSME is a wide and ambitious project
- Several topics and possible exploitation

Introduction: SEP and the OITB

- How clients will interact with the OITB

Introduction: SEP and the OITB

It's a great project...

Introduction: SEP and the OITB

... but how will we make it into reality?

AIMS

- Supporting companies in accessing and using INN-PRESSME's assets and services
- Validating the OITB operational model
- Gathering feedbacks from end-users
- Building a proactive ecosystem engaging external stakeholders and end-users

FINAL GOAL

- Finding and implementing new test cases

OPEN CALLS – The rules

12-15 Innovation Concepts will be subsidized to use INN-PRESSME's facilities and services.

Calls for Innovation Concepts, jury of internal and external experts and evaluation based on:

- Innovativeness of the proposal;
- IPR on technology;
- Concept fitting with the OITB's assets (e.g. pilot lines) and services;
- Starting TRL (best between 4-5)
- Feasibility of the activity according to pilot lines' capacity

We expect Innovation Concepts with costs between 50k-100k euros.

The costs will be covered:

- 70% by the Consortium as provided services (person months to use the facilities)
- 30% from the applicant

OPEN CALLS: how can people interact with the OITB

New PLA
packaging

SEP
**INN
PRESSME**

New bio-based
material for the
packaging sector

OPEN CALLS: how can people interact with the OITB

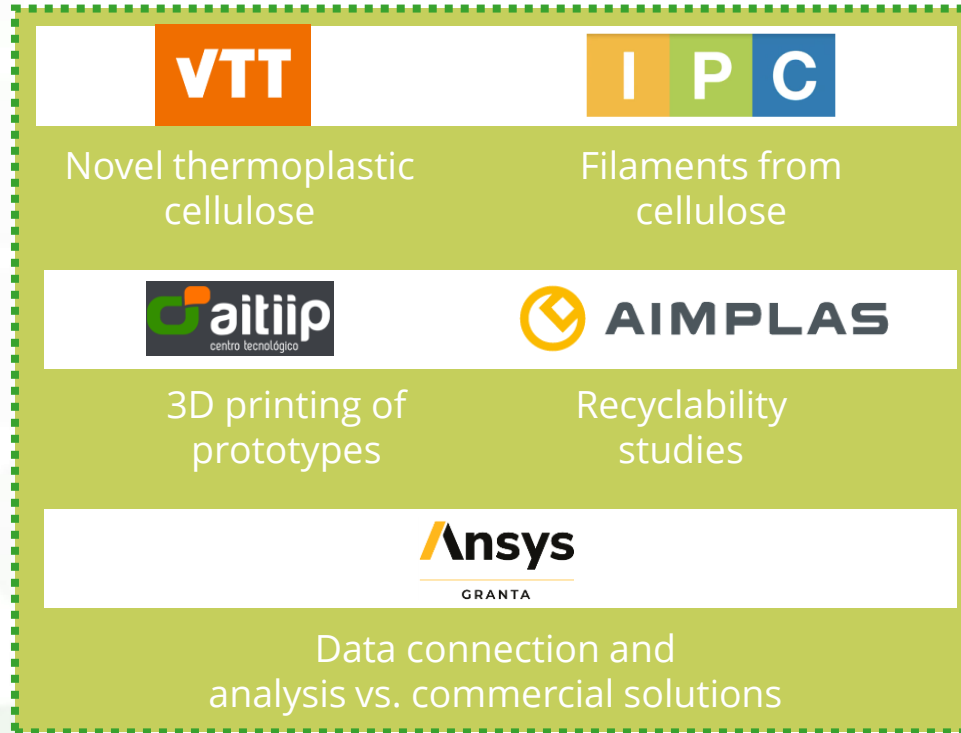

Requires novel plastic parts for the automotive sector

SEP

**INN
PRESSME**

New bio-based materials and prototypes for the automotive sector

OPEN CALLS: the INN-PRESSME platform

Where can I find info on the pilot lines and the services INN-PRESSME will provide during the Open Calls?

The usual questions

Wow, cool, I would really need your expertise but I don't know what I want to innovate

Ok, you have a lot of technologies, but how can we collaborate?

I work in the biobased sector, however we don't need your help

Mmm, I am not sure I need your help to innovate

Who the hell are you????
