The INN-PRESSME project

SEP

Session 2: Services and Open Calls, IP

Aims and objective of the Open Calls

AIMS:

- Supporting companies in accessing and using INN-PRESSME's assets and services
- Validating the OITB operational model
- Gathering feedbacks from end-users
- Building a proactive ecosystem engaging external stakeholders and end-users

Final goal:

- Finding and implementing new test cases

Session 2: Services and Open Calls, IP

Open Calls

INN-PRESSME

1,6 million Euros budget is set aside to support SMEs' and LEs' access to INN-PRESSME's facilities and services.

Rules, procedures and contractual aspects under development, highly important to exchange best practices within the OITB community.

Calls for Innovation Concepts, jury of internal and external experts and evaluation based on:

- Innovativeness of the proposal;
- IPR on technology;
- Concept fitting with the OITB's assets (e.g. pilot lines) and services;
- Starting TRL (best between 4-5)
